FOR EACH TRAVEL EVENT, DISCUSS THE FULFILLMENT OF FISCAL AND PROGRAMMATIC REQUIREMENTS.	No travel had been requested and approved within CSAI Project application. Also note that due to COVID-19, all travel activities have been suspended.
PART III:	
DISCUSS THE VARIOUS TASKS CARRIED OUT BY PROJECT PERSONNEL FOR THE PERIOD.	Project Personnel (Lead Project Coordinator & Program Coordinators) facilitated project meetings, conducted consultation meeting with participating schools, administrators and teachers; entered requisitions, and prepared biweekly certifications to ensure compliance and address any programmatic issues. TAs/ IPAs provided small group instruction and 1:1 tutoring to support at risk students. Teachers provided instruction and created lesson plans to address student needs.
USING PROJECT DATA TO EVALUATE EFFECTIVENESS/PROGRESS, DESCRIBE THE AREAS FOR IMPROVEMENT IN EACH COMPONENT, AS APPLICABLE.	Survey results from ASPIRE, <i>Eskuelan Puengi</i> , and TAs/IPAs are used to show effectiveness of the project along with ways it can be improved. Some of the areas for improvement are the types of support we provide students. As a result of the COVID-19 pandemic, much focus has been emphasized on addressing learning loss. The project will assess to see how to incorporate enrichment and wellness activities to support students. Also improvements on administrative things such as forms that schools complete quarterly. Much of the data collected show positive impact the projects have on student achievement.

<p>EXPLAIN HOW THE USE OF PROGRAM FUNDS TIES WITH PROMOTION OF ACADEMIC ACHIEVEMENT AMONG STUDENTS.</p>	<p>Project funds were used for personnel to support interventions for students and teacher supports through Teacher Assistants and Instructional Program Aides, State Systemic Improvement Plan (SSIP) training, teachers supporting Second Chance, contractual with Asmuyao Community School for Alternative Pathways; procurement of online subscriptions (IXL & Moby Max), instructional supplies and materials and technology equipment for classroom usage. TA/ IPAs supported all models of learning through online, and face-to-face instruction. Teachers design lessons and intervention activities that address the needs of struggling students, provide additional support, and reinforce skills and concepts.</p>
<p>EXPLAIN THE PROGRAMMATIC AND FISCAL CHALLENGES ENCOUNTERED DURING THE PERIOD.</p>	<p>The CSAI Project has not experienced much challenges this quarter. Hiring the needed personnel to fill vacant positions has been slow and the pool of has been limited. The recruitment of teachers to support activities such as ASPIRE and EP has also posed some challenges. Many teachers have expressed teacher burn out and have opted not to participate. This causes the number of students to be served to be less than projected.</p> <p>All contractual and equipment activities have been entered in the requisition. Weekly meetings are held with the procurement to discuss the status and priorities of these items. The main program challenge would be not implementing some of its activates.</p>
<p>WHAT ACTIVITIES WILL THE PROJECT IMPLEMENT NEXT QUARTER?</p>	<p>The following activities will be implemented next quarter:</p> <ul style="list-style-type: none"> • SSIP Training in Spring to include the additional new schools • ASPIRE • <i>Eskuelan Puengi</i> Spring • Implementation of SAM • Summer School
<p>EXPLAIN METHODS THAT ARE BEING USED FOR MONITORING PROJECT ACTIVITIES.</p>	<p>CSAI has used a variety of tools to evaluate the effectiveness of the Project and activities being implemented. This quarter CSAI has used perception surveys, project meetings, training evaluations, and student grades. Evaluation results will be used to improve the implementation of the project along with doing any recommended corrective actions. Also, collaborative meetings with administrators help ensure smooth implementation and school involvement in the design. CSAI continues to maintain communication with school administrators and all stakeholders. Stakeholders have been involved in planning the implementation of activities for the new school year.</p>

Students on campus have access to laptops and/or iPads in their core classes. Our Robotics instructor continues to be creative by incorporating in-class and off-campus opportunities to showcase skills learned. Teachers are in the process of implementing strategies learned from PD workshops attended online over the summer.</p>

<p>EXPLAIN HOW THE USE OF PROGRAM FUNDS TIES WITH PROMOTION OF ACADEMIC ACHIEVEMENT AMONG STUDENTS.</p>	<p>(How did activities implemented contribute to improving student outcomes?) As of this quarter, we have yet to receive any materials or resources via CG2021 funding thus far. More will be updated in the next report. Since many students have gone from online to face-to-face learning and vice-versa, the platforms we have in place with ebooks and online resources have greatly helped students to access materials regardless of where they study from.</p>
<p>EXPLAIN THE PROGRAMMATIC AND FISCAL CHALLENGES ENCOUNTERED DURING THE PERIOD.</p>	<p>(Did you encounter challenges that affected project progress? Was there any corrective action taken or is being planned? If applicable, cite any proposed solution(s) to address the problem.) Since I teach five classes full-time, I have had some struggles with being on task with following up on quotes and entering requisitions. One of our administrators resigned recently and another administrator is on maternity leave which puts the burden on me to do all tasks related to the federal grant. My mother also recently passed away and we are in the process of planning the funeral for later this month. More updates will be made in our next report.</p>
<p>WHAT ACTIVITIES WILL THE PROJECT IMPLEMENT NEXT QUARTER?</p>	<p>(Have you come across a new or better way to implement a project strategy? Are you conducting other types of “best practice” procedures that Federal Programs/State Office could share with other grantees?) By next quarter, the project will hope to have the requisitions entered and materials/resources on hand. Teachers will meet to review and update the strategies they have been utilizing in their classes. Our robotics instructor will continue to find creative ways to showcase students’ skills using the resources provided.</p>
