LIST THE PROJECT GOALS:

During the 3-year cycle, CCCLR's main goal is to provide professional development & curriculum development opportunities for teachers to facilitate the needs of all learners and afford students more experiences and opportunities to engage in their learning so they are better equipped with knowledge and skills that will increase their chances of reaching their academic goals and prepare them for higher education or a career.

The goal gives students the chance to explore, identify and build their competencies for a successful transition to college or the workplace.

LIST THE PROJECT OBJECTIVES:	<p>“Due to the COVID-19 pandemic that created difficult in data collection for Year 1, the annual targets for Year 2 and Year 3 have been revised. To make it more realistic for the project, the annual percentage/targets for Year 1 were maintained for Year 2, and Year 3 percentages were changed to reflect the original Year 2 percentages.”</p> <p>Annual Objective 1: Professional development on effective teaching strategies and the development of high quality and relevant curricula that will give teachers the skills to plan and implement lessons that meet the needs of all students.</p> <ul style="list-style-type: none"> • YEAR 3: 65% of participating teachers will report being more knowledgeable, well prepared or more than well prepared to teach high-quality, rigorous curriculum and relevant strategies in Career Technical Education (CTE), Advanced Placement (AP)/Honors, and Science, Technology, Engineering, Arts, and Math (STEAM) courses as evidenced by self-reflections and/or classroom observation. <p>Annual Objective 2: Professional development on effective teaching strategies and the development of high quality and relevant curricula will afford students opportunities to engage in learning and increase their academic achievement as evidenced in their course grades, Work Keys Assessment scores and the increases in students placing into college-level English & Math.</p> <ul style="list-style-type: none"> • YEAR 3: 65% of students will earn a “C” or better in the CTE, AP/Honors, and STEAM classes taken; and AP test takers scoring a 3 or higher will increase by 4% from baseline data. • YEAR 3: By the end of SY22-23, the percentage of GDOE students who test into college-level English and Math on the UOG Placement Test will be 90% or more (in English) and increase by 4% from baseline of 9% in SY18-19 Placement Test Results (in Math). • YEAR 3: 85% of test takers pass the WorkKeys Assessment with a bronze score or higher and achieve a NCRC certificate. <p>Annual Objective 3: Opportunities and Experiences in academic, visual performing arts and sports events give students more confidence in their academic work and more occasion to engage in their learning to help guide their decision about the path they want to pursue after high school.</p> <ul style="list-style-type: none"> • YEAR 3: 90% of students who participate in Academic Special Events, Visual Performing Arts, theater and music programs, STEAM and sports opportunities will indicate being more engaged in learning and feeling more confident in their academic work as evidenced by self-reflection surveys and will increase their knowledge and interest in related careers. • YEAR 3: 45% of participating students will indicate an increased interest or strong interest in pursuing STEAM for college degree and 45% will indicate an increased interest or strong interest in pursuing a CTE path or a sports career.

Table 4 summarizes the program utilization for all participating schools. Five thousand four hundred sixty (5460) elementary students have utilized the program and 779 lessons were completed. 3,869 Career Assessments were completed. The remaining 855 are student sessions of career exploration.

Table 5 gives the top 3 career clusters identified from the Career Assessments:

- 1.) Law, Public Safety, Corrections and Security
- 2.) Arts, Audio-Video Technology and Communication
- 3.) Health Science/medical

As more students complete the career exploration and take the assessment, teachers will be able to see where students' interests lie and design lessons that can provide more information about these careers to help students become more engaged in their learning and because of their interest in the lesson will develop confidence in their work.

Nine educators participated in the training held on February 16, 2023. Travel reports were submitted and all three conference attendees cleared at DOE Business Office.</p> <p>Musical Theater Competitions of America: Ernest Ochoco, Miren Ramirez (coaches/chaperones) and six (6) student competitors attended the competition. The chaperones' participation will help to elevate the performances of students and improve the structure of organizing theatrical auditions that include outreach and marketing to make theater accessible to more students.</p>
PART III:	
<p>DISCUSS THE VARIOUS TASKS CARRIED OUT BY PROJECT PERSONNEL FOR THE PERIOD.</p>	<p>(The description needs to align with project components and activities outlined in the approved project application.) 100 WORD COUNT</p> <p>In January 2023, DOE migrated to the local MUNIS system as USEd lifted some of the special conditions imposed since DOE was placed on High-Risk Grantee status. Project personnel worked with DOE's Procurement Office and Budget Office to re-enter requisitions under the local procurement system for contractual services entered previously for activities such as: Allied Health, Business Technology & Cosmetology courses for students, Audiovisual Broadcasting Program, Summer & Year-long Mentoring Programs, Dual Enrollment, Math & English camps, Advanced Placement Test Fees, E-sports and Health Certificate Training. Requisitions were also re-entered for supplies & equipment including STEM Robots & Drones, Career Fair supplies, instructional supplies and Interscholastic sports equipment.</p>

	<p>Project personnel facilitated the implementation of the Career Interest Inventory System for elementary schools, worked with high school counselors to plan the 2-day College Fair, coordinated with trainers to conduct professional development in Career Exploration Curriculum Development, Project-Based Learning, STEM Engineering Training, and Computer Science Training.</p> <p>Project staff continued the monthly collaborative meetings with contracted vendors (Guam Community College and Guam Trades Academy) to address challenges with program implementation, review data and discuss ways to increase participation in CTE courses, Choices 360 and WorkKeys.</p>
<p>USING PROJECT DATA TO EVALUATE EFFECTIVENESS/PROGRESS, DESCRIBE THE AREAS FOR IMPROVEMENT IN EACH COMPONENT, AS APPLICABLE.</p>	<p>(What strategies are working, not working?) 100 WORD COUNT</p> <p>Coverage for teachers attending Professional Development training has been an ongoing challenge so upcoming training activities in Component 1 (PBL, Advanced Placement and Computer Science) and Component 3 (STEM Robotics) are planned for the summer months to accommodate the teachers' schedules. Other activities such as Audio Visual Broadcasting Training, Career Academies Training, and STEM Mentoring, Dual Enrollment and English & Math camps and E-sports Training are still in the procurement process so Project data is unavailable as of this reporting period. However, the Project has already implemented staggered training dates to keep teacher absences for training to a minimum.</p> <p>Under Component 2, schools continue to implement <i>Choices 360</i> and <i>WorkKeys</i> Curriculum and dates for the WorkKeys Assessment administration during the District-wide Assessment window of March 27-May 12, 2023 have been scheduled.</p>
<p>EXPLAIN HOW THE USE OF PROGRAM FUNDS TIES WITH PROMOTION OF ACADEMIC ACHIEVEMENT AMONG STUDENTS.</p>	<p>(How did activities implemented contribute to improving student outcomes?) 100 WORD COUNT</p> <p>Funds from CCCLR Project support activities that provide students with opportunities to explore and gain knowledge and skills that will help them make more informed decisions about what they want to pursue after graduation. The online curriculum and assessment tools help to measure the foundational skills required to be successful in a career. Technology equipment help make information & resources more accessible to students and enables them to become confident in their ability to use information to make decisions and solve problems. In addition, the professional development for teachers help build their content knowledge in Career & Technical Education (CTE), Science, Technology, Engineering, Art and Math (STEAM) so that lessons are relevant and meaningful and can help build student competencies necessary for the college or career.</p>

<p>EXPLAIN THE PROGRAMMATIC AND FISCAL CHALLENGES ENCOUNTERED DURING THE PERIOD.</p>	<p>(Did you encounter challenges that affected project progress? Was there any corrective action taken or is being planned? If applicable, cite any proposed solution(s) to address the problem.) 100 WORD COUNT</p> <p>In January 2023, when DOE migrated to the local MUNIS system, Project personnel were tasked to re-enter requisitions previously entered under the TPFAs MUNIS system but the process was immediately stalled because Business Office & Budget Office had not set up accounts for all the object categories. When the procurement process finally moved forward, the usual challenges with getting all our procurement items addressed in a timely manner were encountered. Further, Professional Development training activities were limited because of the lack of coverage at schools for teachers attending workshops. Attendance was not maximized so efforts are being made to hold the training during Summer months to accommodate the teachers' schedules.</p>
<p>WHAT ACTIVITIES WILL THE PROJECT IMPLEMENT NEXT QUARTER?</p>	<p>(Have you come across a new or better way to implement a project strategy? Are you conducting other types of "best practice" procedures that Federal Programs/State Office could share with other grantees?) 100 WORD COUNT</p> <p>The Project Staff will work with GCC to compile and analyze WorkKeys and Choices 360 data from the Spring administration and then plan for next school year's training for Proctors in anticipation of Choices 360 and WorkKeys Curriculum implementation and WorkKeys administration.</p> <p>Project staff will continue to meet with vendors and the teachers and counselors to coordinate professional development activities and secure needed supplies and materials.</p> <p>Project staff will continue to work closely with the State Program Officer and the Procurement Office to facilitate the workflow approval process for professional development activities, purchasing of necessary equipment for training, purchasing of supplies for classroom instruction.</p>

LIST TRAVEL ACTIVITIES COMPLETED.	<ul style="list-style-type: none"> • 2023 National Association for bilingual Education (NABE) Conference in Portland, OR, February 22-25, 2023. • 2023 TESOL Convention & English Language Expo in Portland, OR, March 21-23, 2023.
FOR EACH TRAVEL EVENT, DISCUSS THE FULFILLMENT OF FISCAL AND PROGRAMMATIC REQUIREMENTS.	<p>Participants to off-island conferences have submitted a travel application, which was reviewed to see how participation in the conference will benefit both teacher, school and district; with proposed training plans/ ideas. Applications were rated and scored and teachers were selected.</p> <p>NABE A total of three (3) educators attended the 2023 National Association for Bilingual Education (NABE) conference in Portland, OR. Educators had to opportunity to gain knowledge from national experts on multilingual education for multilingual students, learn evidence-based strategies to improve English Learner’s academic literacy, accelerate fluency and comprehension. Three individuals have submitted travel reports. Two travelers have presented to school personnel this quarter.</p> <p>TESOL A total of eight (8) educators attended the 2023 TESOL Convention & English Language Expo in Portland, OR. 	<p>strategies that will benefit our diverse population of English learners. Eight individuals have submitted travel reports with six pending. Three travelers have presented to school personnel this quarter.</p> <p>The Project will be collaborating with all participants to host a Summer School conference for all summer school teachers and coordinators. This summer training will also include other travelers that attended funded under separate projects.</p>
<p>PART III:</p>	
<p>DISCUSS THE VARIOUS TASKS CARRIED OUT BY PROJECT PERSONNEL FOR THE PERIOD.</p>	<p>Project Personnel (Lead Project Coordinator & Program Coordinators) facilitated project meetings, conducted consultation meeting with participating schools, administrators and teachers; and address any programmatic issues. TAs/ IPAs provided small group instruction and 1:1 tutoring to support at risk students. Teachers provided instruction and created lesson plans to address student needs.</p>
<p>USING PROJECT DATA TO EVALUATE EFFECTIVENESS/PROGRESS, DESCRIBE THE AREAS FOR IMPROVEMENT IN EACH COMPONENT, AS APPLICABLE.</p>	<p>Survey results from ASPIRE and <i>Eskuelan Puengi</i> are used to show effectiveness of the project along with ways it can be improved. Some of the areas for improvement are the types of support we provide students. The project will assess to see types of training needed to support classroom instructional and student learning. Also, improvements on administrative things such as forms that schools complete quarterly, deliverable review for stipend payments. Much of the data collected show positive impact the projects have on student achievement.</p>
<p>EXPLAIN HOW THE USE OF PROGRAM FUNDS TIES WITH PROMOTION OF ACADEMIC ACHIEVEMENT AMONG STUDENTS.</p>	<p>Project funds were used for personnel to support interventions for students and teacher supports through Teacher Assistants and Instructional Program Aides, State Systemic Improvement Plan (SSIP) training, teachers supporting Second Chance, contractual with <i>Asmuyao</i> Community School for Alternative Pathways; procurement of online subscriptions (IXL & Moby Max), instructional supplies and materials and technology equipment for classroom usage. Teacher Service Agreements were paid to teachers to teach ASPIRE and <i>Eskuelqn Puengi</i>. Teachers design lessons and intervention activities that address the needs of struggling students, provide additional support, and reinforce skills and concepts.</p>
<p>EXPLAIN THE PROGRAMMATIC AND FISCAL CHALLENGES ENCOUNTERED DURING THE PERIOD.</p>	<p>The CSAI Project has not experienced much challenges this quarter. The delay with procurement processing requisitions and converting them into Purchase Orders; the change in the system from federal to local, etc. Hiring the needed personnel to fill vacant positions has been slow and the pool of applicants has been limited. The recruitment of teachers to support activities such as ASPIRE has also posed some challenges. Many teachers have expressed teacher burn out and have opted not to participate. This causes the number of students to be served to be less than projected.</p>

<p>WHAT ACTIVITIES WILL THE PROJECT IMPLEMENT NEXT QUARTER?</p>	<p>The following activities will be implemented next quarter:</p> <ul style="list-style-type: none"> • Close out of ASPIRE • Close out of SAM • Implementation of Summer School
<p>EXPLAIN METHODS THAT ARE BEING USED FOR MONITORING PROJECT ACTIVITIES.</p>	<p>CSAI has used a variety of tools to evaluate the effectiveness of the Project and activities being implemented. This quarter CSAI has used perception surveys, project meetings, training evaluations, and student grades. Evaluation results will be used to improve the implementation of the project along with doing any recommended corrective actions. Also, collaborative meetings with administrators help ensure smooth implementation and school involvement in the design. CSAI continues to maintain communication with school administrators and all stakeholders. Stakeholders have been involved in planning the implementation of activities for the new school year.</p>

PART III:	
DISCUSS THE VARIOUS TASKS CARRIED OUT BY PROJECT PERSONNEL FOR THE PERIOD.	<p>(The description needs to align with project components and activities outlined in the approved project application.)</p> <ol style="list-style-type: none"> I. The Social Supports & Outreach Teams (SSOT) focused on responding to referrals. II. PBIS Coaches focused on providing support to school site personnel to ensure discipline data was compiled accurately and provided training and consultation, to support the sustainability of the PBIS Framework. III. Positive Behaviors & Safe School Environments: LEA personnel provided support to school sites. IV. Health & Safety: LEA personnel complete activities for this component.
USING PROJECT DATA TO EVALUATE EFFECTIVENESS/PROGRESS, DESCRIBE THE AREAS FOR IMPROVEMENT IN EACH COMPONENT, AS APPLICABLE.	<p>(What strategies are working, not working?)</p> <ul style="list-style-type: none"> ▪ Referral types and number will assist teams and project on determining the areas of needs for our students and families. ▪ Project personnel will resume the use of parent surveys to determine effectiveness of project services. ▪ Exit surveys are used to identify areas of weakness in training and how to create better or more effective training sessions
EXPLAIN HOW THE USE OF PROGRAM FUNDS TIES WITH PROMOTION OF ACADEMIC ACHIEVEMENT AMONG STUDENTS.	<p>(How did activities implemented contribute to improving student outcomes?)</p> <ul style="list-style-type: none"> ▪ SSOT – contacted families and students experiencing challenges and assisted in resolving the challenges to allow students to safely return to school. ▪ PBIS – collaborated with School Based Behavioral Health (SBBH) personnel to address mental and behavioral health concerns, easing anxiety in students, parents and employees.

EXPLAIN THE PROGRAMMATIC AND FISCAL CHALLENGES ENCOUNTERED DURING THE PERIOD.	<p>(Did you encounter challenges that affected project progress? Was there any corrective action taken or is being planned? If applicable, cite any proposed solution(s) to address the problem.)</p> <ul style="list-style-type: none"> ▪ Procurement process continues to have extended delays due to the lack of trained personnel to process requisition in a timely manner, product availability and shipping delays are also problematic. Project Lead remains diligent in requesting all approvers to quickly complete their review, as well as communicate with possible vendors on the availability of products. ▪ Project vacancies have finally been filled and team members are assisting new personnel to learn the department SOPs and project practices.
WHAT ACTIVITIES WILL THE PROJECT IMPLEMENT NEXT QUARTER?	<p>(Have you come across a new or better way to implement a project strategy? Are you conducting other types of “best practice” procedures that Federal Programs/State Office could share with other grantees?)</p> <ul style="list-style-type: none"> ▪ Social Service & Outreach Teams (SSOT) will offer more student and parent engagement activities. ▪ PBIS Framework and PBIS Coaching supports will be provided with additional training opportunities. ▪ Positive Behaviors & Safe Schools: Behavior assessments and supports will be made available and conducted for students and employees ▪ Health & Safety: Attempt to expedite the procurement of additional supplies and materials and support training opportunities and data collection.
EXPLAIN METHODS THAT ARE BEING USED FOR MONITORING PROJECT ACTIVITIES.	<ul style="list-style-type: none"> ▪ Programmatic data collection on referral completion ▪ PBIS Framework implementation assessment (Tiered Fidelity Inventory) ▪ School Climate Survey (SCS) ▪ Programmatic data collection on training participants and Participant Exit Surveys

LIST THE PROJECT GOALS:

By the end of the three-year program, the Private, Non-Public (PNP) schools will have achieved the following overall goals: a) Expand student access to experiences to improve student performance in math and reading and enhance their college and career readiness; and b) Provide professional development and technology support for teachers to hone their knowledge and skills in technology integration and disciplinary specific pedagogies.

**LIST THE PROJECT
OBJECTIVES:**

Due to the COVID-19 pandemic that created difficulty in data collection for Year 1, the annual targets for Year 2 and Year 3 were revised. To make it more realistic for the project, the annual percentages/targets for Year 1 were maintained for Year 2, and Year 3 percentages were changed to reflect the original Year 2 percentages, as follows:

A. Expand student access to experiences to improve performance in math and reading and enhance their college and career readiness:

Component 1. Academic Performance

- YEAR 3: Improve academic performance in math and reading by at least 3% from baseline on the summative assessment used by the Private, Nonpublic (PNP) school.
- YEAR 3: The percent of AP students scoring 3 or above will increase by at least 3% for those PNPs offering Advanced Placement (AP).

Component 2. Specialized Events & Opportunities

- YEAR 3: There will be at least a 3% increase in student participation in STEAM activities, other academic and non-academic special events and at least 65% of participating students will report they are more engaged in learning and that they had a positive experience.

Component 3. Academic & Career Planning

- YEAR 3: At least 75% of participating students will indicate that College/Career Fair is helpful in providing them the information needed to prepare for a college/career path, and at least 20% of these students will indicate an interest in pursuing a STEAM college path/CTE path.

B. Provide professional development and other supports for teachers to hone their knowledge and skills in technology integration and disciplinary specific pedagogies:

Component 4. Professional Development

- YEAR 3: At least 50% of teachers participating in PD will report implementing what was learned in the classroom and feeling more confident in their teaching effectiveness (teacher efficacy).

<p>EXPLAIN HOW THE USE OF PROGRAM FUNDS TIES WITH PROMOTION OF ACADEMIC ACHIEVEMENT AMONG STUDENTS.</p>	<p>(How did activities implemented contribute to improving student outcomes?) 100 WORD COUNT</p> <p>CG program funds promote OCE student academic achievement by providing necessary formative/summative assessment materials, advanced placement & pre-AP course material and assessment resources, access to special event resources that supplement and enhance learning objectives including Math Olympiad, Math Counts, Academic Challenge Bowl, National Forensics League. Funding also enhances teacher professional development opportunities to supplement current teaching and learning activities. OCE continues to further expand student access to experiences to improve student performance in math and reading, enhancing high school students college and career readiness, and providing professional development and technology support for teachers with the activities facilitated this fiscal year.</p>

EXPLAIN METHODS THAT ARE BEING USED FOR MONITORING PROJECT ACTIVITIES.

100 WORD COUNT

OCE has yet to schedule school site visits to monitor federally funded activities and assets at least once per fiscal year to ensure compliance is achieved overall. OCE Superintendent has met with all schools during 2nd quarter to assess needs and concerns of which has been shared with OCE staff. OCE staff has increased by one part time staff assisting with grant records filing and will soon assist with entering requisitions.

LIST THE PROJECT GOALS:

By the end of the three-year program, the Private, Non-Public (PNP) schools will have achieved the following overall goals: a) Expand student access to experiences to improve student performance in math and reading and enhance their college and career readiness; and b) Provide professional development and technology support for teachers to hone their knowledge and skills in technology integration and disciplinary specific pedagogies.

**LIST THE PROJECT
OBJECTIVES:**

Due to the COVID-19 pandemic that created difficulty in data collection for Year 1, the annual targets for Year 2 and Year 3 were revised. To make it more realistic for the project, the annual percentages/targets for Year 1 were maintained for Year 2, and Year 3 percentages were changed to reflect the original Year 2 percentages, as follows:

A. Expand student access to experiences to improve performance in math and reading and enhance their college and career readiness:

Component 1. Academic Performance

- YEAR 3: Improve academic performance in math and reading by at least 3% from baseline on the summative assessment used by the Private, Nonpublic (PNP) school.
- YEAR 3: The percent of AP students scoring 3 or above will increase by at least 3% for those PNPs offering Advanced Placement (AP).

Component 2. Specialized Events & Opportunities

- YEAR 3: There will be at least a 3% increase in student participation in STEAM activities, other academic and non-academic special events and at least 65% of participating students will report they are more engaged in learning and that they had a positive experience.

Component 3. Academic & Career Planning

- YEAR 3: At least 75% of participating students will indicate that College/Career Fair is helpful in providing them the information needed to prepare for a college/career path, and at least 20% of these students will indicate an interest in pursuing a STEAM college path/CTE path.

B. Provide professional development and other supports for teachers to hone their knowledge and skills in technology integration and disciplinary specific pedagogies:

Component 4. Professional Development

- YEAR 3: At least 50% of teachers participating in PD will report implementing what was learned in the classroom and feeling more confident in their teaching effectiveness (teacher efficacy).

FFY 2022 CONSOLIDATED GRANT
 QUARTERLY REPORT
 Grant Award #: S403A220002

Component 5. Technology Support & Technology Integration

- YEAR 3: Teachers in participating schools will report at least 20% improved access to technology and online resources and increased integration of technology in the classroom.

As of this quarter, we have yet to receive any materials or resources via CG2021 or CG2022 funding. More will be updated in the next report. With access to laptops and ipads in core classes, all the platforms we have in place with ebooks and online resources have greatly helped students to access materials and be engaged in their classes.</p>

EXPLAIN THE PROGRAMMATIC AND FISCAL CHALLENGES ENCOUNTERED DURING THE PERIOD.	(Did you encounter challenges that affected project progress? Was there any corrective action taken or is being planned? If applicable, cite any proposed solution(s) to address the problem.) Delays with vendors and guidance with procurement have been our main concerns since the school year started. Thankfully training for the new Munis system has been completed and laptops for entering requisitions have been received. We are still still awaiting updates from vendors regarding product inquiries and price quotes. Some vendors are sold out of items. In the meantime, we continue to follow up.
WHAT ACTIVITIES WILL THE PROJECT IMPLEMENT NEXT QUARTER?	(Have you come across a new or better way to implement a project strategy? Are you conducting other types of “best practice” procedures that Federal Programs/State Office could share with other grantees?) By next quarter, the project will hope to have the requisitions entered and materials/resources on hand. Teachers will meet to review and update the strategies they have been utilizing in their classes. Our robotics instructor will continue to find creative ways to showcase students’ skills using the resources provided

LIST THE PROJECT GOALS:

By the end of the three-year program, the Private, Non-Public (PNP) schools will have achieved the following overall goals: a) Expand student access to experiences to improve student performance in math and reading and enhance their college and career readiness; and b) Provide professional development and technology support for teachers to hone their knowledge and skills in technology integration and disciplinary specific pedagogies.

**LIST THE PROJECT
OBJECTIVES:**

Due to the COVID-19 pandemic that created difficulty in data collection for Year 1, the annual targets for Year 2 and Year 3 were revised. To make it more realistic for the project, the annual percentages/targets for Year 1 were maintained for Year 2, and Year 3 percentages were changed to reflect the original Year 2 percentages, as follows:

A. Expand student access to experiences to improve performance in math and reading and enhance their college and career readiness:

Component 1. Academic Performance

- YEAR 3: Improve academic performance in math and reading by at least 3% from baseline on the summative assessment used by the Private, Nonpublic (PNP) school.
- YEAR 3: The percent of AP students scoring 3 or above will increase by at least 3% for those PNPs offering Advanced Placement (AP).

Component 2. Specialized Events & Opportunities

- YEAR 3: There will be at least a 3% increase in student participation in STEAM activities, other academic and non-academic special events and at least 65% of participating students will report they are more engaged in learning and that they had a positive experience.

Component 3. Academic & Career Planning

- YEAR 3: At least 75% of participating students will indicate that College/Career Fair is helpful in providing them the information needed to prepare for a college/career path, and at least 20% of these students will indicate an interest in pursuing a STEAM college path/CTE path.

B. Provide professional development and other supports for teachers to hone their knowledge and skills in technology integration and disciplinary specific pedagogies:

Component 4. Professional Development

- YEAR 3: At least 50% of teachers participating in PD will report implementing what was learned in the classroom and feeling more confident in their teaching effectiveness (teacher efficacy).

FFY 2022 CONSOLIDATED GRANT
 QUARTERLY REPORT
 Grant Award #: S403A220002

Component 5. Technology Support & Technology Integration

- YEAR 3: Teachers in participating schools will report at least 20% improved access to technology and online resources and increased integration of technology in the classroom.

Grant Award #: S403A220002**

A. Expand student access to experiences to improve performance in math and reading and enhance their college and career readiness:

Component 1. Academic Performance

- YEAR 3: Improve academic performance in math and reading by at least 3% from baseline on the summative assessment used by the Private, Nonpublic (PNP) school.
- YEAR 3: The percent of AP students scoring 3 or above will increase by at least 3% for those PNPs offering Advanced Placement (AP).

Component 2. Specialized Events & Opportunities

- YEAR 3: There will be at least a 3% increase in student participation in STEAM activities, other academic and non-academic special events and at least 65% of participating students will report they are more engaged in learning and that they had a positive experience.

Component 3. Academic & Career Planning

- YEAR 3: At least 75% of participating students will indicate that College/Career Fair is helpful in providing them the information needed to prepare for a college/career path, and at least 20% of these students will indicate an interest in pursuing a STEAM college path/CTE path.

B. Provide professional development and other supports for teachers to hone their knowledge and skills in technology integration and disciplinary specific pedagogies:

Component 4. Professional Development

- YEAR 3: At least 50% of teachers participating in PD will report implementing what was learned in the classroom and feeling more confident in their teaching effectiveness (teacher efficacy).

Component 5. Technology Support & Technology Integration

- YEAR 3: Teachers in participating schools will report at least 20% improved access to technology and online resources and increased integration of technology in the classroom.

Reporting on the application of the teaching strategies learned from the TESOL training is not applicable for this quarter, as the PD took place at the end of the 2nd quarter (March), during which the Japanese School of Guam (JSOG) was observing its year-end break. The new school year begins on April 14.

As participating teachers are given some time (at least 3 months) to incorporate the strategies learned from the training in their lessons and apply these in their classroom instruction, data collection through a survey will be conducted during the 4th quarter of FY '22.

- To date, the conference attendees have planned lessons for the new school year, which begins April 14, that integrate strategies and tools obtained at TESOL 2023. Amy Wahl, as English Program Coordinator and Instructor, has begun restructuring all curriculum maps for the school from 1st through 9th grade to create a hybrid curriculum of Guam DOE content standards and U.S. bilingual standards. The curriculum will be designed as a flexible and sustainable guide for current and future English instructors at JSG.

USING PROJECT DATA TO EVALUATE EFFECTIVENESS/PROGRESS, DESCRIBE THE AREAS FOR IMPROVEMENT IN EACH COMPONENT, AS APPLICABLE.

**(What strategies are working, not working?)
 100 WORD COUNT**

- Project cannot be evaluated for this reporting period, as PD was procured at the end of this quarter, at which time the school has completed its school year and awaits the beginning of a new year on April 14. Upon starting the new school year, the travelers will implement the new strategies, resources, and digital tools obtained during the training, and data collection can begin to evaluate performance measures.

EXPLAIN HOW THE USE OF PROGRAM FUNDS TIES WITH PROMOTION OF ACADEMIC ACHIEVEMENT AMONG STUDENTS.

**(How did activities implemented contribute to improving student outcomes?)
 100 WORD COUNT**

- As the PD has just been acquired, the teachers who attended will be able to utilize new skills, activities, and resources in their classrooms during 3rd quarter, with the goal of improving student achievement in acquiring and mastering the English language.
